

## Screenplay & Independent Film Advisory

*Coverage, development notes, and finance strategy from a 30-year TV veteran and award-recognized screenwriter.*

727 Squared Entertainment offers a select set of consulting services to independent screenwriters, filmmakers, and small production companies. All work is delivered personally by our founder, Michael Gordon Bennett — a former Senior Assignment Editor in network news, Travel Channel producer, and award-recognized screenwriter with three decades of experience across every seat in the production process.

We work with writers who are serious about their material and producers who are serious about their capital. Coverage is delivered as a written PDF report; development consultations include a scheduled call; finance advisory is structured as either single sessions or a three-month retainer engagement. Turnarounds are honored to the day, payment is upfront, and clients receive the same attention regardless of tier.

## ABOUT MICHAEL GORDON BENNETT

Michael Gordon Bennett spent three decades inside American television and independent production — as a Senior Assignment Editor in network news, a producer at the Travel Channel, and a strategic operator across independent film and finance. He holds a BA in Journalism and a Certificate in Feature Film Writing from UCLA. He is a U.S. Air Force veteran and the author of *Out of Frame: Growing Up Where I Didn't Belong*.

His feature screenplay *Barrage* — the story of the 320th Barrage Balloon Battalion, the only all-Black U.S. Army unit to land at Normandy on D-Day — has been recognized by the Austin Film Festival, the Los Angeles International Screenplay Awards, and the Big Apple Film Festival. He is currently developing a slate of four features through 727 Squared Entertainment, including the adaptation of *Out of Frame*, and is designing a capital-protected investment fund for independent film.

Clients benefit from his experience in every seat: writer, producer, executive, and independent finance strategist. Coverage and notes are grounded in the craft as it is taught at UCLA and practiced in professional development rooms — not opinion, but structured evaluation calibrated to the market a script would need to survive.
